EXPERIENCE

Full-Stack Web Developer & Digital Marketer
TwinkleRain | March, 2022 - Now

Since 2022 to the present day, I have been serving as a Full-Stack Web Developer & Digital Marketer at TwinkleRain. In this multifaceted role, I've embraced the challenges of both web development and digital marketing realms. As a Full-Stack Web Developer, I've been responsible for crafting end-to-end solutions, seamlessly integrating front-end interfaces with back-end functionalities to create immersive user experiences. This has involved working with a range of technologies and frameworks to ensure optimal performance and aesthetics...

PHP & Laravel Developer
Bangladeshi Software Company | Jan, 2020 - Dec, 2021

From Jan, 2020 to Dec, 2021, I worked as a PHP & Laravel Developer at a prominent software company based in Bangladesh. During this period, I was deeply immersed in the world of web development, leveraging PHP and the Laravel framework to create dynamic and robust web applications. My role involved collaborating with a talented team to design and implement efficient code structures, develop database schemas, and ensure seamless functionality...

Web Design & Wordpress
Vietnam Company | Feb, 2019 - Nov, 2020

During Feb,2018 to Nov,2019 a Vietnam-based web design company specialized in WordPress, crafting unique websites that blended modern design trends with user-friendly navigation. Their services spanned layout design, visual elements, and content organization, resulting in visually appealing and functional websites. Their portfolio showcased diverse projects for clients, reflecting their adaptability across industries.
